Safety Reminders

Please remember that fire safety is extremely important at this time.

Open burning is still prohibited in NY until May 14th, as most wildfires occur during this time. New York has strict open burning restrictions to prevent wildfires and reduce air pollution. During the season, campfires should only be charcoal or untreated wood. Burning treated-wood, garbage, and leaves is always prohibited. Also, no fire should ever be left unattended and must be extinguished for the safety of all neighboring cabins.

Gates and Speed Limits

All gates should be closed at all times (even when you feel like you are just leaving for a quick errand). Please mention to your contractors, family and guests you may have stopping by your place throughout this upcoming season.

The safety of our members and of the larger community continues to be of paramount importance to us, so please bear with us should changes or adjustments be needed.
